

FEDERATION CONGOLAISE DES JEUX D'ECHECS

Activities report 2nd semester 2019

The year 2019 which has just ended has been fruitful for chess activities in the Democratic Republic of Congo and we would like to thank the World Chess Federation for the confidence it has in our Federation.

We were able to organize interschool competitions in Kinshasa and participate in the 7th Francophone Chess meeting in Paris with the support of FIDE Funding / Assistance.

The program contract signed between FIDE and FECOJEC on July 22, 2019 was very favorable for our Federation, however it experienced many difficulties in its enforcement phase. Mainly taking into account two constraints: the execution time to achieve the Key Performance Indicators and the financial means available to reach them.

So much so that we had to adapt and modify our development objectives for the 2nd Semester 2019 and that we could not start until September 2019 in Kinshasa to finish in December 2019! We hope that during the FIDE Congress and the Management Workshop for Federations which will be organized by the Planning Development Commission in Abu Dhabi from February 26 to March 1, 2020. We could improve our partnership during the sessions thanks to the details of the new program that will be presented to us.

New chess clubs have formed in Kinshasa and Lubumbashi in association with the Chess Club Ubuntu which has benefited from the technical and logistical support of FECOJEC, the latter has made its instructors as well as games and chess clocks available to it .

Given the extent of the DR.Congo with these 26 Provinces, we will need a large amount of equipment to popularize the practice of chess in Clubs, Schools and Universities of our country in order to participate in the different competitions around the world.

Finally, FECOJEC hopes that during 2020 it will continue to benefit from the assistance of FIDE.
