ACTIVITY REPORT

Introduction

In the year of 2021, Federação Xadrez de Timor-Leste (FXTL) was one of the recipients of the FIDE Funding for Chess Development. With the funding from FIDE, FXTL has developed various important parts of chess in Timor-Leste such as Chess Basic Trainings, Establishment of Chess Associations in Municipalities, promoting chess to new players as well as functionalizing the FXTL Secretariat.

The total amount of \$5000 USD was used to establish 7 Chess Associations (including Basic Chess Training and Practical Games) in 7 Municipalities and payment for an Administrative Staff at FXTL. From the establishment of the Chess Associations, FXTL gained more and more new players.

Establishment of Chess Associations in Municipalities

Timor-Leste is divided into four major parts; the Eastern, Middle and Wester Parts as well as the Enclave Ou-Cusse. Amongst these four parts, existed 12 Municipalities and one Special Administrative Region, the Enclave Oe-Cusse. In previews years, there were six Chess Associations in 6 Municipalities being established. The other 6 Municipalities and the Special Administrative Region were targeted to stablsh Chess Associations in the year of 2021 and they were established.

Why Chess Associations?

Based on the Hierarchical Sport Organization in Timor-Leste, the association is the Umbrella Organization for the Clubs. All the clubs should associate in the Associations at Municipality levels. Above the Association, at National Level there is Federation which is the umbrella for all the Associations.

The Chess Associations Established

Until the end of 2021 12 Chess Association in Timor-Leste have been established. One other Chess Association which is in the Enclave Oe-Cusse was not able to establish in the end of 2021 due to the inexistence of transportations. As the Enclave Oe-Cusse is located separately from Main Island of Timor-Leste, there were no Ship or Plane to transport the FXTL Team to Oe-Cusse. However, the FXTL Team has managed to get to Oe-Cusse in the Beginning of January 2022 and the Chess Association in Oe-Cusse was Launched on the 14th of February 2022. All the 7 new Chess Associations Established are listed on Table 2.

Chess Trainings

In all these 7 Chess Associations established, after the launching of the Associations the Chess Trainings both theoretical and practical were held. From these trainings, FXTL gained more and more new Chess Players who are continuously train to represent respective municipalities in Municipal as well as National Level Competitions.

In these training mentioned, after the theoretical chess teaching, a full day chess practical games given with some case studies and problems solving for some trainees who have familiarity with chess previously. The training materials in these trainings consisted of:

6. Chess Notation,
7. Basic Principles and technics of Chess Games,
8. Introduction of Law of Chess,
9. Rules of Play and
10. Practical Sessions.

FXTL Achievements in 2021

With the FIDE Funding for chess development, in the year of 2021, FXTL has achieved the followings:

1. Few rated players were produced. These rated Players gained direct rating through the National Championship in 2021,
2. More new players were registered in Federation and gained FIDE IDs,
3. The Establishment of Chess Associations in whole country is completed,
4. An Administrative Personal benefitted \$150.00 during 10 months.

Conclusion

Funding for Chess Development in Timor-Leste from FIDE hold a very important role in the proses of chess expansion and Chess rising in the Country. Again, due to the Corona Virus in 2021, only at the end of the year, FXTL held a National Championships and Chess Association

Establishments in 7 Municipalities. It is concluded that, with the FIDE Funding Timor-Leste has developed better Chess in the country from year to year.

Recommendations

Considering the great achievement of FXTL utilizing FIDE Development Fund for Timor-Leste, it is hoped that the FIDE Development Fund would still be allocated to Timor-Leste in many years to come particularly in the year of 2022. This situation will level the FXTL and Timor-Leste players to other Chess Federations and other players from other countries. It is also recommendable that, other than financial support, Timor-Leste Chess Federation would also be supported with chess equipment.

APPENDIX C - KEY PERFORMANCE INDICATORS

NATIONAL CHESS FEDERATION (NCF): FEDERACAO XADREZ DE TIMOR-LESTE (FXTL)

CONTINENT: ASIA

DEVELOPMENT LEVEL:

PERIOD: 2021

KEY PERFORMANCE INDICATORS (KPIs)¹ are the critical (key) indicators of progress toward an intended result.

The NCF is required to measure the effectiveness of its programmes using the KPIs listed below. At the beginning of the period, the NCF is expected to complete both the **Baseline** and **End of Period-target** values. It is possible that a Federation may not be able to report on a particular KPI and this will be taken into consideration at the end of the reporting period. NCFs can also make use of the '**Comments**' field as required. The NCF is also allowed to include any additional KPIs that it considers to be relevant for reporting purposes. When the NCF is preparing its final report for the end of the reporting period, the **Actual** values of the KPIs need to be completed for each KPI identified.

KPI STRUCTURE

The KPIs' shall be divided into 4 main categories as follows:

Core: These KPIs are related to the technical operations of the federation. It includes number of active players, number of tournaments, average player ratings as well as supporting 'infrastructure' e.g. number of arbiters, trainers ETC. Most of this information can be sourced from by FIDE via its website or from the Elista office. This KPI allows FIDE to ascertain the quality/quantity of the players, technical official's events, etc...

Social/Special: These examine the engagement in additional programmes related to the work of other FIDE Commissions and their priorities. These include: females, kids/chess in education, vulnerable groups (refugees, people with special needs, chess in prisons etc.). Federations are encouraged to engage in at least one such programme. This KPI allows federations to fulfil the horizontal goals of FIDE as chess impacts several aspects of society.

Promotion: This includes the focus on the dissemination and profiling of chess activities of the federation and FIDE support. This should include mainstream and social media. It is important that chess activities are highlighted so persons within the wider communities understand the value of chess and the role of FIDE which can increase the opportunities for support.

Partnerships: This includes sponsors, strategic partners whose objectives are aligned to the federation. Strategic partners can include other government agencies, NGOS, media outlets. This KPI tracks the efforts of federations to engage other partners in the support of their mandate so as to build increased sustainability.

Of course, Federations can also include any other KPIs they see as relevant to their operations. The KPIs are listed in the table below.
