1. Competitions organized in Lomé

- The **Monthly Rapid Open of Lomé (OMEL)**, this tournament has been created in 2014 and is held every second Saturday of each month. •

2. Competitions organized in other cities, outside the capital town Lomé

- The **2021 TOGO NATIONAL INDIVIDUAL CHAMPIONSHIP**. Due to Covid-19, the 2020 experiment has been repeated in 2021. We have relocated the National Championship to Davie, a locality located 30 km from Lomé, our capital. 16 players were confined from 14th to 17th October, and competed in strict compliance of the Covid-19 barriers measures.

4. Capacity building

Koffi Botsoe has conducted a national trainers' seminar, at KEVE, 40 km from Lomé, during 3 months. 12 new school instructors were trained.

5. Materials

A new computer has been purchased for the federation.

CONCLUSION

In the current context of Covid, it is more than a challenge to make predictions, knowing the unpredictable nature of this disease and its consequences on the organisation of human activities.

2021 was no exception to this rule and many of the activities scheduled in our annual calendar could not be carried out due to restrictions. However, we remain confident and committed to our process of developing Chess throughout the Togolese territory with the support of new local strategic partners.

The Togo Chess Federation will continue to work to fully achieve the common objectives defined with FIDE, for this collaboration to count among the best examples.

6. Lessons Learned/Future Improvements:

As in 2020, COVID-19 also negatively affected 2021. The government of TOGO, like some other governments of countries in the world, has restricted some sports activities, at times, which has resulted in the disruption of our activities.

Despite this situation, we managed to revive our training program, for Chess in schools instructors, during three months training, made for sport teachers at KEVE in the AVE1 municipality, after 4 months of total ban of any sport activity without government authorization.

In 2021, the federation took advantage of some online activities, including tournaments organised in the sub-region and worldwide: The second online Olympiad organised by FIDE, the Francophonie online tournament organised by AIDEF ...and online training seminars for our coaches.

From this experience, it is clear to us that we have to invest a lot in online activities for which we encounter many problems due to lack of adequate equipment and space where our players could have a good internet connection.
